

To whom it may concern,

I was lucky enough to have heard Fred speak at the executive chamber event. The opening session was talked about throughout the entire three days of the event. Not only was the information fun and entertaining, but his presentation style kept all the executives engaged and connected. His insight, ideas, humor, and strategies impacted us all greatly, and it was not just your average material.

I was so impressed with his performance that I called Fred back to speak at the exclusive WOW (Women of Whistler) event. Far from being your typical presenter, his real life stories and analogies relayed the message in a way that attendees had not heard before. Every single one of the 100 attendees present were thoroughly engaged and inspired. It was not just entertainment because we all walked away with solid tools to better our lives.

I highly recommend hiring Fred for any event where you need a speaker to inspire, captivate, and leave behind concrete and relevant tools to impact the lives of you and your attendees.

Thank you,

Fiona Famulak
President
Whistler Chamber of Commerce.
