I am pleased to write this endorsement for Fred Sarkari due to the impact I have gained from attending his Leadership workshop.

Attending a 2 - day leadership course with Fred was not only beneficial to the effectiveness to my role as a manager but also impacted my overall life.

Fred has the ability to relay leadership concepts that were very relevant to our culture at the Hilton and the hotel industry over all. It was refreshing to learn theoretical leadership concepts through relevant real life analogies and experiences.

He's helped me connect with my clients and employees at a deeper level. The most powerful take away for myself from his workshop was the ability to tap into the potential of our people.

I highly recommend any Hotel chain or service industry to bring Fred in to speak and work with their employees. The impact and results for your people will be ever lasting.

Sincerely

Vivian Choa
